

Stepping Stone Two Wells Childcare & Early Development Centre

Centre Philosophy

At Stepping Stone Two Wells Childcare & Early Development Centre and Out of School Hours Care, our commitment is to work in collaborative partnerships with families, educators, children and our community to provide the best outcomes for the children in our care. Our focus is to develop secure, respectful and reciprocal relationships that create a positive environment where children can explore, grow and develop while learning in a supportive environment and in welcoming learning spaces.

We, “Educators” believe that children are unique and individual learners, we value their individual needs, abilities and interests. Through a play based program we provide opportunities for our children to grow through both curriculums “Early Years Learning Framework” and “My Time, Our Place”. We encourage our families to be involved in, and contribute to, all aspects of our centre program.

Our centre offers a diversity of activities which can teach young children to respect and celebrate the differences in all people and by offering this, children can appreciate, while learning, about different cultural aspects whilst offering new experiences for children of all ages.

We endeavour to guide the children about sustainability and how important it is to care for our environment so they gain a sense of pride and belonging and how they can contribute to become caretakers of the environment.

We would like to acknowledge that our centre is built on the traditional lands for Kaurna people and that we respect their spiritual relationships with their country.

Written by Centre Director and Staff Team in consultation with children and families.
